Las Tunas: Light and Landscape on Calle Las Playitas

Same location. Same reality. A more beautiful, safer and more functional street.

A simple, low-cost, high-impact intervention that preserves the essence of Todos Santos, improves safety, organizes parking, and enhances our community.

VISITORS
A MORE VIBRANT TOWN

DETAILS – LANDSCAPED STRIP (EAST SIDE)

Native, low-water vegetation, natural stone elements and warm lighting.

Multiple entry and exit access points to improve traffic flow.

Subtle, low-level lighting for a safer and more pleasant nighttime environment.

PHASE 1 – INTERVENTIONS (IMMEDIATE PRIORITY)

- Gravel pedestrian sidewalk on west side (in front of businesses)
- Natural stone edge and low-water vegetation
- Narrow landscaped strip on east side to separate street from parking
- Multiple entry and exit access points to parking
- Warm, high-quality lighting along the entire street

PHASE 2 – INFRASTRUCTURE (FUTURE)

- Underground electrical lines
- Additional infrastructure improvements
- Integration with side streets and intersections
- Coordination with authorities and service providers

IMPORTANT NOTE

This is a private initiative project. It only requests financial support from the municipality, limited to permitting facilitation and institutional coordination.
